

COVID-19 – ENVIRONMENTAL CLEANING AND DISINFECTING LOG SHEET FOR MIGRANT WORKER ACCOMODATIONS

Important! The virus that causes COVID-19 can survive in the environment for up to several days and is commonly found on surfaces that are touched often through out the day. Frequent cleaning and disinfecting will kill the virus and stop it from spreading to others.

- **Cleaning:** use warm water and detergent/soap or an all-purpose cleaner
- **Disinfecting:** use a bleach and water solution (1:50 ratio, 4 teaspoons bleach to 4 cups water)

Daily Cleaning Log Sheet	WEEK OF: _____													
	Monday		Tuesday		Wednesday		Thursday		Friday		Saturday		Sunday	
BUNKHOUSES (follow instructions above for mixtures/products used for cleaning and disinfecting surfaces)														
	AM	PM	AM	PM	AM	PM	AM	PM	AM	PM	AM	PM	AM	PM
